SUMMARY

Full Stack Developer skilled in Kotlin, Jetpack Compose, and Firebase, with hands-on experience building AI-powered mobile applications for real-world impact. Proven track record across 5 hackathons, including a 1st Prize win at an international hackathon and a Top 50 national ranking at Smart India Hackathon 2025. Seeking an Android Developer OR Software Development internship to deliver scale able, user-friendly applications.

SKILLS

- **Languages:** HTML, Tailwind CSS, JavaScript, Kotlin, Java, SQL, Python
- **Frameworks & UI:** Jetpack Compose, XML, Flutter, Material Design
- **Web Development:** HTML, CSS, JavaScript, Frontend Development, Backend Development
- **Backend & APIs:** Firebase, REST APIs, MongoDB, Express
- **Tools & Concepts:** AI/ML Integration, GitHub, Android Studio
- **Soft Skills:** Problem-Solving, Leadership, Time Management, Adaptability, Communication

EDUCATION

- B.Tech II Year, CSE - CSBS | SRM Institute of Science & Technology, Chennai - Tamilnadu 2024 – 2028
(Ongoing)
- Class XII (MSBSHSE) | Disha Public School & Jr. College, Wai- Maharashtra 70.83% | 2024
- Class X (MSBSHSE) | St. Paul's School & Jr.. College, Satara- Maharashtra 82.00% | 2022

EXPERIENCE

- **Android App Development Intern | Corizo** (Aug 2025, 2 Months)
Completed an intensive 2-month Android development training program covering Kotlin, UI design, and app architecture, applying skills through a hands-on capstone project under mentor guidance.
- **Social Media Marketing Intern | Internshala** (Jan 2025 – Feb 2025)
Executed targeted social media campaigns over a 2-month internship to promote paid online courses, strengthening content strategy, audience targeting, and stakeholder communication skills.

PROJECTS

- **AI-Powered Climate Risk Reporting App** — Kotlin, Jetpack Compose, Firebase, AI/ML, Google Maps API
Built a real-time hazard reporting app integrating 5 technologies for AI-based image validation and geo-tagged incident prioritization; won 1st Prize at CODEFEST '26 International Hackathon
- **MediPlus — AI Healthcare Accessibility App** — Kotlin, OCR, Firebase, REST APIs
Developing an AI-powered prescription scanner integrating 4 technologies for OCR-based medicine recognition, generic alternative suggestions, and a nearby pharmacy locator.
- **AI Recruiter Pro — AI-Powered Recruitment Platform** — Next.js, TypeScript, Tailwind CSS, Node.js, Express, MongoDB, JWT, OpenAI Embeddings
Built a full-stack AI recruitment platform integrating 8 technologies to semantically match candidates to job descriptions and generate ranked shortlists, with resume parsing and JWT authentication.

ACHIEVEMENTS

- 1st Prize — CODEFEST '26 International Hackathon (Feb 2026), for the AI-powered climate risk reporting app
- Special Award — CODE-A-THON '26 National 36-Hour Hackathon (Jan 2026).
- 2nd Prize — Code4Change '26 National 24-Hour Hackathon (Feb 2026).
- Top 50 Teams (National) — Smart India Hackathon 2025 (Dec 2025).
- 2nd Prize — TIFAC Hackathon, VIT Vellore (Apr 2025).

CERTIFICATIONS

- Android App Development — Corizo (2025)
